# the silky collection

**Our desire to strive for the ideal world, is a never ending story. We continue to search for more, for better, to bring you the best... because you deserve it!**

With the Silky collection, in addition to the goals already achieved, we have focused on softness. Our search has brought us to the “chenille” yarn. This type of yarn owes its name to its shape. It takes the shape of caterpillars such as the Pine processionary. Chenille is the French name for caterpillar.

Many months it took us to develop the perfect indoor/outdoor chenille with success.

To highlight this noble yarn even more, we have also chosen to finish the seats with a sophisticated edging.

Come with us and enjoy this journey through our catalog that takes us from our home over the mountains to sunny beaches. My home is where my Roolf-Living is.

Whether you are craving your favourite drink, a good book or a tasty snack, the Silky coffee table allows you to have everything within easy reach, not only making your pouf more functional but also giving it a sophisticated look.

The timeless design of this table harmonises perfectly with your Silky setting, turning any outdoor space into an oasis of elegance.

Choose teak and discover the perfect balance between elegance and functionality, transforming your outdoor space into an oasis of timeless luxury.

# the silky coffee table

## Discover the Silky Base: Increased Comfort, Refined Aesthetics

### The benefits:

#### 1. Increased Sitting Position:

Enjoy an enhanced seating experience with our Silky Base. Thanks to the base, the seat height is increased for more comfort and convenience. Now you can relax and enjoy your moments in the perfect position.

#### 2. Aesthetic Added Value:

The Silky base combines aluminium with an anodised bronze finish for a timeless aesthetic. The four legs, deeper and streamlined, create a floating effect that gives your Silky pouf an airy look. Simple, yet sophisticated, the base adds a touch of elegance to your outdoor space.

#### 3. Enhanced Protection:

Protect your seating from dirt and moisture by raising it off the ground with our Silky Base. With a clever design, we make sure your pouf remains safe and protected while you enjoy your outdoor space.

#### 4. Practical Functionality:

With strategically placed holes for water drainage, our base offers practical solutions for all weather conditions. In addition, a small curb ensures your seat stays in place even during windy days.

# the silky base

**Wintering outside?**

The Silky Collection from Roolf Living is made of 100% polyester and is perfect for outdoor use.

If you not only want to keep your garden furniture clean but also extend its lifespan, use our Silky protector. It offers simple but effective protection against wind and weather so that your garden furniture continues to shine year after year. You can use it for overwintering, but comes also in handy during our changeable in-between seasons.

A protective cover... so many advantages

- Extends the service life
- Protects against weather conditions
- Protects against dirt & moisture
- Protects against mold & fungus

The protectors are available for these Silky models:

- The Corner Seat
- The Club Seat
- The Single Seat
- The Long Chair
- The Square Pouf
- The Round Pouf

A good protective cover should protect but at the same time prevent suffocation, otherwise your furniture will go mouldy. The protector has a water-repellent outer layer and a breathable inner layer.

The protective cover is custom-made and completely encloses your Silky. It can be closed with simple velcro fasteners and a zip at the back. The grip at the top makes lifting very easy.

# Revolutionary improvement

**Sit on clouds with  
our Dotty Collection.  
Softer and more resilient  
than ever before!**

Irresistibly soft, puffy and super comfortable, creating moments of pure delight. We're thrilled to unveil a remarkable improvement to our beloved Dotty poufs; now enriched with **premium quick-dry foam!**

On top of that, the foam helps actively fight bacteria and fungus, ensuring a hygienic sitting experience. Rest assured, the benefits you love about our Dotty poufs remain unchanged. They are still strong, effortlessly float on water, are easy to maintain etc.

But now, with the infusion of quick-dry foam, we've taken your **comfort** to new heights.

[www.roolf-living.com](http://www.roolf-living.com)

#### **ROOLF-LIVING** **Designed by Christophe Harinck**

As a designer, I am in awe of objects that bring a certain peace of mind. Simple, yet powerful. Designs that go one step beyond beauty and function and aim to conquer hearts and minds. Why not create a sense of joy, of longing? Those are the designs that I aim for.

Having spent two decades refining my craft, I am now proud of having taken it a step further. The Roolf Living indoor/outdoor collection of rugs and furniture adds a typical Bo-Ho feel to high-quality, budget-friendly and eye-catching design meant to deliver instant happiness. Take your time. Own it. It's yours.

“Roolf-Living brings an elegant and playful touch to your space. We design and produce products with a colorful, unique and sustainable texture to spice up your outdoor and indoor life. Our products are your ticket to living your Roolf moments: they invite you to chill and socialize, where and how you want.

I love

## New Colours 2024: Introducing a Symphony of Elegance

### Oxblood Red and Raspberry:

Immerse yourself in the rich allure of our new Oxblood Red and Raspberry shades. These colours seamlessly integrate with our existing shades of pink and terracotta, allowing you to craft a visually stunning and cohesive outdoor atmosphere.

### Gold and Moss Green:

Introducing the opulence of Gold and the serenity of Moss Green, carefully chosen to complement organic architecture. These colours infuse a touch of luxury and natural beauty into the Dotty collection.

### Matching Rugs for a Complete Experience:

To ensure a holistic and seamless design experience, we proudly offer matching carpets designed to perfectly complement the relaunch of our Dotty collection 2024.

Create an elegant environment that resonates with both style and tranquility.

# Outdoor Indoor

# Indoor Outdoor

**Sustainability** is an integral part of our company culture. At every step of our production process, we strive to minimize our environmental impact and make a positive contribution to our planet:

**1. recyclable materials:**

Our covers are made from 100% polypropylene, a fully recyclable material. We aim to maximize the use of sustainable materials and minimize the impact of our products at the end of their lifecycle.

**2. recycled fillings:**

The polyurethane flakes used to fill our poufs are made from recycled materials. By using recycled fillings, we reduce the demand for new raw materials and decrease the amount of waste ending up in landfills.

**3. fabric leftovers repurposed into ROOLF shoppers:**

We utilize the leftover fabrics from our production process to create reusable shoppers. This not only minimizes waste but also provides our customers with a practical and sustainable alternative to single-use plastic bags.

**4. waste management:**

We are committed to minimizing our waste and maximizing recycling. All cardboard we use is recycled by specialized cardboard recycling companies. Additionally, our textile waste after weaving is collected and recycled, further reducing our environmental impact.

**5. water usage:**

As we weave fabrics, we minimize our water usage and strive for efficient resource utilization. Through advanced production methods, we aim to reduce the amount of water needed for our processes while maintaining the quality of our products.

**6. installation of solar panels:**

We have invested in the installation of solar panels at our facilities, reducing our reliance on traditional energy sources and harnessing renewable energy for our production processes.

**7. stringent supplier control:**

We take responsibility for ensuring that our supply chain meets strict sustainability standards. Our yarns are sourced from certified factories, with a commitment to ethical and environmentally friendly production methods.

At our company, it's not just about delivering high-quality products and a comfortable experience for our customers, but also about striving for sustainability and environmental consciousness.

We are committed to reducing our ecological footprint and making a positive change in the world around us. With this dedication to sustainability, we continue to work towards a better future for our planet and future generations.

**18 reasons why** this outdoor rug & furniture collection is made of our typical Roolf textile with its unique look, its funky feel and its distinctive technical assets. Want some good reasons why you're about to make a smart choice?

**1. strong**

Roolf outdoor furniture and fabrics are made of 100% polyprop. They are meant to withstand the forces of nature.

**2. comfortable**

You need to relax? Here's your answer: the Dotty Pouf, the Love Seat, the Sunbed... they have all been designed with your comfort in mind.

Firm? Yes. But no hard edges, no steel frames. Only loads of softness. Let it go...

**3. easy cleaning**

Outdoor lounge furniture is meant for chilling, not for hours of cleaning. The fabrics we use help you get your priorities straight. Enjoy!

**4. outdoor = indoor**

The Roolf rugs, chairs, seats... are equally perfect for indoor use. Imagine them in your living room, by the fireplace, in the kids' corner... Choose freely.

**5. budget-friendly**

We want to make sure everybody can enjoy the pleasure of outdoor lounging. So we've made this collection very affordable. (The look of exclusivity is a free gift from us to you.)

**6. unique texture**

Whichever colour you choose – and we have many – each of them is made up of at least 3 different shades. Looking at your Roolf lounge set never gets boring, we've made sure of that.

**7. dry quick**

All Roolf poufs are infused with premium quick dry foam of superior quality combined with a portion of EPS granulate for a soft and luxurious seating experience.

Quick Dry Foam dries almost instantly and contains modern silver additives that fight bacteria and fungus. So you get comfort and super-fast drying in one!

**8. buddies with the sun**

Each and every item in the Roolf collection has been UV-treated, which means all those beautiful colours will keep their wonderful appearance. Let the sun shine, ladies and gentlemen. (And in case you want extra protection, we've got it covered: just ask for our handy **UV-protector spray**.)

**9. lightweight**

Had enough sun? Want to move to the shade, or vice versa? Just pick up your lounge set and go sit where you want to. There's nothing to it.

**10. happy floater**

Yes, the Dotty Pouf even floats. There's a bit of magic to it. Just say abracadabra and go sit on water.

**11. too stiff or not too stiff**

Do I feel too stiff? Solved in a jiffy! Just take out one or more of the high-quality EPS-granulate pads we've put in for that very reason: you're the boss when it comes to deciding how your pouf should feel. Don't throw the pads away, though. That way, you can put them back whenever you wish. (And you can always buy a refill pack.)

**12. safety zipper**

Don't want your kids or pets to accidentally open your pouf? That makes two of us. So we've made sure to equip them with a safety zipper. Impossible to open without a funky little keychain we're happy to provide you with.

**13. be your own architect**

Release your inner artist and arrange your outdoor lounge furniture any way you want. All models are totally modular (what's in a word?) So go ahead and combine them to your heart's content.

**14. urban space**

We don't all have a spacious garden to enjoy those happy Roolf-moments in. And that's just fine. If you're the proud owner of a cosy patio or a wooden deck, know that Roolf is the perfect fit for you as well. We wouldn't have it any other way.

**15. looks matter**

Outdoor living is our kind of living. To us, it means letting things go. Take a seat, see what happens. The look of our lounge range reflects just that. Some call it vintage. Others call it bohemian. We call it cool. Your rugs, chairs, seats, sunbeds... all come in many colours and in many shapes. Together, they form your own world of lounge. Prepare for a unique look with many feels and embrace that special state of mind: chillax.

**16. made in Belgium**

Flemish textile is world-renowned. This is a label we carry with pride.

**17. red dot design award**

This we also carry with pride: the Dotty Pouf has won the prestigious Red Dot Design Award 2018 for its original design. ([www.red-dot.org](http://www.red-dot.org))

**18. IMO certification**

AHOY there! Get on board and let your worries about furniture on a ship be thrown overboard! We are proud to say that Roolf is seaworthy, thanks to its coveted IMO certification.

Dotty Love Seat

Hot Dotty

Introducing the Hot Dotty, a revolutionary heated pouf designed to elevate your outdoor living experience. Available exclusively in two models—Dotty Medium and Dotty Extra Large—and two sophisticated colors: Beige and Anthracite. This innovative pouf is not only a stylish addition to your outdoor decor but also a practical solution for staying warm in chilly weather. Powered wirelessly by a rechargeable battery, the Hot Dotty offers two heat settings for your comfort.

In setting 2, it provides a generous 7-8 hours of continuous heat, while setting 3 ensures a cozy 2-3 hours of warmth. The battery conveniently charges in just 2-4 hours, ensuring you spend more time enjoying the heat rather than waiting for it.

Experience the ultimate in warmth with Hot Dotty, as it targets and warms the essential organs in the body, creating an intense feeling of coziness. Perfect for extending your outdoor gatherings during colder seasons, Hot Dotty is your go-to solution for a comfortable and warm ambiance. In light of impending bans on traditional patio heaters, Hot Dotty offers an eco-friendly and cost-effective alternative.

We've calculated that businesses, especially in the catering industry, could save up to 80% on energy costs by opting for heated seats like Hot Dotty instead of traditional patio heaters.

Make a sustainable choice for your outdoor heating needs and embrace the warmth with Hot Dotty.

# Roolf Black Edition

One of the challenges of the modern world is the careful use of natural resources. The Roolf Black Edition meets this social requirement to a particularly high degree.

Our luminaires are made of BIO-polyethylene. BIO-polyethylene is a natural product and is made from sugar cane.

By manufacturing our products from renewable raw materials, we not only conserve the finite resources of our planet, we also actively contribute to the reduction of greenhouse gases.

As the sugar cane grows, the plant binds CO<sub>2</sub> from the air. After the sugar cane is harvested, alcohol is formed through fermentation (as in the production of wine), from which polyethylene is then obtained.

No petroleum, no fracking, 100% Roolf Black Edition.

In this collection we have

- BE small lamp 60
- BE high lamp 160
- BE ice bucket sitter
- BE coffee table.
